## WELCOME TO THE NEIGHBOURHOOD: MATTHEW & CAYLEN

Hello neighbours! We are so excited to finally be back in our home and part of this wonderful community. Our names are Matt Calvin and Caylen Patience. We purchased our home at 1633 Shelbourne Street, across from Triangle Park, in December 2021. While we very much love the historic personality and houses in this neighbourhood, our home was in need of some major TLC. We undertook a full rebuild. Fast forward two years later and we are so relieved to now be in our home.

We've had the pleasure of meeting many great folks in the neighbourhood, especially with their dogs at Triangle Park, and we

look forward to meeting many more. As well, we enjoy participating in community events and are excited to join the dinner club and book clubs.

We moved to Calgary from Toronto back in November 2021. Matt works in Insurance & Risk Management and Caylen is a Project Manager & Interior Designer. If you see us, please feel free to stop and introduce yourself - we look forward to meeting you!

Please email all newsletter submissions to [ScarboroNewsletter@gmail.com](mailto:ScarboroNewsletter@gmail.com) by May 10th. This is an earlier deadline this month due to volunteer scheduling.

## A MESSAGE FROM OUR COMMUNITY ASSOCIATION PRESIDENT

David Gates, President, Scarborough Community Association

Spring is in the air this April morning as I write my column for the May edition of Scarborough News. We opened our backyard pond and water feature last week (always the happiest day of the year!) so summer must be close at hand! I look forward to seeing many of you in your gardens or out walking your children, grandchildren and dogs over the course of the next few months!

In last month's newsletter, I provided you with an outline of your community association's active participation in the West Elbow Local Area Plan initiative. As this edition of Scarborough News goes to press, we are finalizing our submission to the City relative to the heritage guidelines that we are asking to be implemented in our community. I want to thank Tarra Drevet and Karin Gashus, the community representatives on the West Elbow LAP working groups, for their hard work in preparing this comprehensive submission. I also want to acknowledge the important contribution of the members of the Community Advisory Group that we struck late last year to provide advice and guidance to our community's representatives on these two working groups. The Community Advisory Group is chaired by Andrew Azmudeh and consists of Norval Horner, Harvey Bernbaum, Lora Wyman, Jessie Sloan, Parth Somani, and Jonathan Schofield. Thank you all for your dedicated service to our community.

Continuing with our series of information pieces related to the West Elbow LAP, I urge you to read Karin Gashus' excellent article in this edition of Scarborough News on the subject of heritage guidelines. I believe that you will find Karin's overview to be of tremendous assistance in understanding this complex issue.

Looking forward, I would remind you of the special Town Hall event that will take place on Monday June 24, 2024, at 7:00 p.m. at the Community Hall. This important meeting will focus on the draft Heritage Guidelines applicable to Scarborough that we expect to be released by the City sometime in late May. We want to discuss with you the proposed guidelines and seek your comments and feedback. I also expect that we will use this Town Hall event to brief you on the legal opinion that we have recently sought relating to the scope and enforceability of the Anderson Caveat. I look forward to a big turnout to this important community discussion.

In my column in the April newsletter, I told you about the letter that the Scarborough Community Association, along with 51 other community associations, sent to Mayor Gondek and the members of city council expressing our community's opposition to the blanket rezoning initiative. This matter is before city council commencing on April 22, 2024. The city has received over 5,000 written submissions and 800 speakers have registered to make oral representations.

On April 20, 2024, I was invited, along with the presidents of the 51 other community association signatories to this letter, to meet with the Mayor. I am pleased to report that the meeting was polite and cordial and the Mayor appeared engaged and interested in our input. The Mayor stated at the outset of the meeting that she was there to listen to the concerns of the various represented communities. After receiving these representations, she assured the group that the city is committed, amongst other things, to preserving the existing parks and green spaces in the city, and that she understood the concern that unchecked densification risked replacing trees with air conditioners attached to multi-unit residential buildings. She maintained that City Council is aware of the parking challenges already confronting Calgary. She stated that she accepted a point that I raised during the meeting regarding the importance of protecting our heritage assets while we take action to deal with densification and the current housing shortage. Finally, she expressed the view that community concerns could well result in significant amendments to the motion currently before Council to adopt blanket rezoning.

### Up-Coming Community Events

As you know, our community association has three primary sources of funding: memberships, hall rental revenue, and casino funds. Every 18 months or so, we are given the opportunity to participate in one of the city's casinos. Our next event is scheduled for June 7 and 8, 2024, at the Elbow River Casino. We expect to raise about \$80,000 over the course of these two days. Needless to say, casino revenue is an important source of funding for our events and activities!

We require approximately 60 volunteers to take on various roles. A great many volunteers are still required, particularly on Saturday, June 8th. I have already signed up to contribute to this event. I know that I can count on you to join me in supporting our community through a small investment of your time as a volunteer. Please go to <https://www.signupgenius.com/go/5080A44AEAC28A7F49-48834982-scarboro> to sign up online. For further information, you can contact Peter Strickland at [particle@shaw.ca](mailto:particle@shaw.ca).

Finally, I want to cordially invite all Scarborough residents to attend our annual barbeque on Saturday, June 15, 2024, at the Community Hall. Details on ticket purchase can be found elsewhere in this edition of Scarborough News.

**The sweeper trucks will commence the annual spring clean in Scarborough on May 30th.**

Visit <https://www.calgary.ca/roads/maintenance/spring-street-cleaning.html> to sign up for reminders when your street is being cleaned.

Please remove all obstructions from the roadway including vehicles, sport equipment (basket ball nets etc.) and keep them off the road for the entire day.

**Street sweeping will take place Mon-Fri from 8am-4pm.**

All enforcement actions are taken at the direction of Mobility/Calgary Parking. Tickets are issued both by officers on the road as well as photo enforcement.

**Please watch for signs in our area and stay off the road to avoid receiving a ticket.**

**GET A TASTE OF 4-H: LEARN TO DO BY DOING**

**GET A TASTE OF 4-H!**

Join our 3-Week *Touring* 4-H Intro Club

Join us for three unforgettable weeks where you'll explore a wide range of 4-H projects at different locations. From gardening to gelato & baby horses to games, there's something for everyone to enjoy and remember.

**3 WEEKS in JUNE**  
Monday & Thursdays  
June 3, 6, 10, 13, 17 & 20th  
See [www.4hab.com/member-programs](http://www.4hab.com/member-programs) for details.

**REGISTER TODAY LIMITED SPACE!**

And it is all in ONE program!

WANT MORE INFO? EMAIL: [INTROCLUBS@4HAB.COM](mailto:INTROCLUBS@4HAB.COM)

**GET A TASTE OF 4-H!**

A New 6-Week Intro Club in South Calgary

**Wednesdays 6 WEEKS Starts May 1st**  
6:00 - 8:00 pm  
@ Kingstland Community Association

**REGISTER TODAY LIMITED SPACE!**

IMAGINE Exploring: Snacking Smart & Staying Active, Cake Decorating, Soil Free Gardening, Enchanting Elixirs & Fun with Foods plus Running Business Meetings, Communications and more . . . all in ONE program!

WANT MORE INFO? EMAIL: [INTROCLUBS@4HAB.COM](mailto:INTROCLUBS@4HAB.COM)

Do you have children 9 - 18? Let them experience the power of hands-on learning with our "Learn to Do By Doing" program and get a "Taste of 4-H"! Join us for one of two upcoming programs - a 6-Week Explore 4-H Intro Club starting in May or a 3 Week Touring Club in June.

In the 6-Week Club, members will explore a variety of different 4-H projects including Health & Fitness, Foods, Arts, Cookie Decorating, Science, and more starting May 1st, 2024!  
<https://www.4hab.com/member/4-h-intro-club-explore-4-h-south-calgary/>

In June, members can join us for three unforgettable weeks where they will have the chance to explore a wide range of 4-H projects at different locations. From gardening to gelato, baby horses to games, there's something for everyone to enjoy and remember. <https://www.4hab.com/member/4-h-alberta-intro-club-explore-4-h-touring/>

In addition to discovering new interests, participants will learn how to conduct business meetings, enhance communication & record-keeping skills, and build new friendships. Through engaging projects and activities, essential skills like problem-solving, critical thinking, teamwork, and communication will be developed in a supportive environment.

This is your final opportunity to participate in the pilot program of the Intro Club. Don't let this chance slip away!  
If anyone has questions, please email [introclubs@4hab.com](mailto:introclubs@4hab.com)

## HERITAGE GUIDELINES: A BRIEF OVERVIEW

Karin Gashus, Scarborough Community Association Heritage Committee

It has been a busy time for the SCA Heritage Committee as we move forward with the city to develop Heritage Guidelines as part of the West Elbow Local Area Plan (WELAP). We have had two workshops with the city to date, with a third to be held in May. We expect that the city's draft Heritage Guidelines will be released prior to the May meeting. Scarborough's written submissions to the city on the heritage guidelines that we propose for our community will be filed by the end of April.

There are sixteen communities that are included within the WELAP. Of those sixteen, eight communities, including Scarborough, have been identified by the city as having heritage assets. The city recognizes the historical significance of our Olmsted designed community and the existence of intact heritage assets within Scarborough. Of this group of eight communities, the city has determined three levels of heritage density. Scarborough and Mount Royal are recognized as having the most heritage buildings which is why the WELAP Heritage Working Group is focused on a set of heritage guidelines specific to Scarborough.

The Scarborough WELAP team are working to promote the community as part of a heritage area where we have concentrated groupings of heritage assets. The local area plan will include specific design guidelines to ensure that new development is compatible and fits with the historic character of the area.

### **What are heritage assets?**

The city recognizes heritage assets as privately-owned buildings (in our case, residences) typically constructed before 1945, that retain most of their original style, design, details, and building materials that are integral to the original construction, specifically the part of the house facing the street. In Scarborough we have over 200 homes that are built before 1945, that have, over the years, retained a great deal of their original integrity. We are very fortunate to be able to walk through Scarborough and experience a streetscape that looks very much the same as it looked 100 years ago. This is a unique, defining feature of our community.

The city also supports the designation of post-world war houses based on architectural merit. In the case of Scarborough, we have 57 homes that were built between 1946 and 1975. In the result, most buildings in the community are considered either heritage assets, or architecturally significant. Indeed, we have whole city blocks in Scarborough with all intact heritage homes. Maintaining roof lines, windows, natural material and greenspace consistent with these existing homes is important to maintaining the integrity of the original Olmsted design.

### **What are Heritage Guideline areas?**

Heritage Guidelines areas will be identified through the LAP process. Their boundaries consider the vision and policies of the LAP and the 2019-2020 Heritage Asset Windshield Survey completed in our community. Heritage Guideline areas are areas that have concentrated groupings of heritage assets. Typically, they are areas where these assets make up greater than 25% of the block face. The LAP will include specific design guidelines to ensure that new development within these areas is compatible with the historic character of the area.

### **What will Heritage Guidelines achieve?**

The adoption and application of Heritage Guidelines will help ensure new development respects the historic character of existing homes within the neighbourhood and preserve the heritage attributes that are central to our community. When the Heritage Guidelines are in place, any plans to build or renovate homes within the boundaries will be required to meet these Heritage Guidelines. Heritage Guidelines address general characteristics of buildings rather than enforcing strict architectural rules. Although the design of new development needs to be sensitive to and respect existing heritage assets, the intent of the Guidelines is not to require new development to have an historic appearance. Rather, the Guidelines encourage modern development that is highly contextual and echoes the past context established by existing heritage assets.

The Heritage Guidelines now in place in the community of North Hill are instructive in terms of understanding how the city is likely to address the establishment of similar guidelines in our community. In North Hill, the Guidelines address four overarching building elements: site and landscape design; roofs and building massing; front facades; and windows, building materials and details.

The Scarborough WELAP team has developed a set of guidelines that support the different architectural styles that are common to Scarborough. Our forthcoming submission to the city's Heritage Planning team will seek to enhance the North Hill Guidelines to add rigour to the existing setback requirements of the Anderson Caveat, protect parks and landscapes, and ensure new designs do not overshadow existing homes.

# ORIGINS OF A SCARBORO TRADITION: SCARBORO SENIORS' KOFFEE KLATSCH

Kate Morriset

Photo: (left to right) Sharon Nettleton, Kate Morriset & Cathy Smith

One late August afternoon Kate Morriset and Cathy Smith stood chatting on Scarboro Avenue. They were discussing the various activities offered to residents by the Scarboro Community Association. From preschool for the little ones, soccer and hockey for older children and dinner club and BBQ for the adults, all the bases seemed to be covered with one exception. There was nothing to appeal to the seniors of Scarboro. "Lets' try a coffee party; it'll be a chance to visit with old friends and meet new neighbours", suggested Cathy.

Thought led to action and soon Kate (who was on the SCA Board at the time), Cathy and Sharon Nettleton gathered to go through the directory to see who might be interested and was "old enough". The first Koffee Klatsch - a name suggested by Cathy - was held October 23, 2014 at the home of Dave and Cathy Smith. The organizers had delivered invitations into mailboxes and did not know what to expect. More than 20 seniors attended sharing coffee, cookies and conversation. At first, the men of that generation were unsure about attending a "coffee party" but now they are among our strongest supporters.

Other things have evolved from the Scarboro Koffee Klatsch. There is a seniors' exercise group at the hall every Monday afternoon. Yearly, there is a list of trades provided to members so that they can more easily "age in place". It is a wonderful way to connect and catch up on the Who and the What of our little village. Anyone who self identifies as a senior is welcome and four or five times per year since 2014, 20 to 40 people have met in private homes or the Community Hall or in the park. If you have questions, reach out to Kate (403) 680-0592

## MAY BOOK CLUB

- Chapter One** "Compass" - Murray Lee
- Chapter Two** General discussion on books recently read
- Chapter Three** "Fayne" - Ann Marie MacDonald
- Chapter Four** "Two Old Women" - Velma Wallis
- Chapter Five** "Tresspasses" - Louise Kennedy
- Chapter Six** "East Grand Lake" - Tim Ryan
- Chapter Seven** "The Once & Future Witches" - Alix Harrow

### Renovating or Developing Your Property?

If you are planning a development or aware of one being proposed in the neighbourhood, we encourage you to reach out to the SCA Planning Committee for guidance & assistance

[Planning@ScarboroCommunity.com](mailto:Planning@ScarboroCommunity.com)

## COMMUNITY GARDEN DAY: VOLUNTEERS NEEDED

**May 25th @ 10am**

**Outside the Community Hall**

(or May 26th if the 25th is rained out)

We are partnering with the City on cleaning up around our Scarboro Community Hall. Pruning, weeding beds and planting some heritage plants is on the agenda. Some tools and gloves will be available, but bring some extra!

Snacks and drinks will be available.  
Contact: [ergombos@outlook.com](mailto:ergombos@outlook.com) with questions.

# SUNALTA SCHOOL UPDATE

Christine McCrory, Principal, Sunalta School

Sunalta School loves spring! As we work to heal the earth, the earth heals us...from the book Braiding Sweetgrass. Our school has many projects and experiments on the go to connect with nature inside and outside the classroom. Grade 4s are participating in the Fish In Schools (FINS) program with Bow Habitat Station. They are raising rainbow trout in the learning commons and will release them in June. Learning concepts about the importance of lakes and ponds, invasive species, and how to be stewards of water have had an impact on our future generation of conservations. Students are also looking forward to utilizing our outdoor planters to study edible plants, herbs, and learn how to plant and maintain a food garden. Our leadership club has been exploring what native pollinator plants, safe habitats, and water sources we can create for bees and other small crawling and flying animals. Our school has purchased a vertical, aeroponic garden system to learn and experiment with sustainable, soil-free systems (thanks to our grade 6 alumni legacy gift). Learning about the many careers as a horticulturalist has also been a focus of these activities.

Photo: DNACRISPR by Ophelia & Tara

**Calgary Science Fair:** Sunalta was proud to have 5 science fair projects entered in the Calgary Science Fair which occurred in April. The creativity and complex problem-solving skills of our students were apparent in their topics and research. Congratulations to Ophelia & Tara for receiving a Silver Medal for the DNACRISPR Cas9 (Design a baby) project inspired by our Eric Walters author visit in September. Janvii & Mihir received a Bronze Medal for their JVC Hydraulics entry. Honourable mentions: Aahna & Mila for Deforestation, Titus & Ian for Which Planet is Most Habitable (Earth or Mars), Video Games and their Affect on Kids by Siddarth, Gautham & Jinde

**Calgary Elementary School Mathematics and Computing Math Test:** Sunalta students have been studying with Ms Gulewicz & Ms Dragatis, as well as at home in preparation for the CESMC Math Test. Students will have 50 minutes to complete up to 20 questions to compete for prizes.

We are looking for reading volunteers for our Sunalta Reads program. If you have spare time and enjoy supporting literacy, please contact us at [sunalta@cbe.ab.ca](mailto:sunalta@cbe.ab.ca) Sunalta has a [website](http://www.sunalta.ca) that is regularly updated with upcoming events and activities.

**Looking to sell your home?**

Emergency  
Medical  
Services

**Window & Balcony  
Safety**

With the return of warmer weather, Emergency Medical Services (EMS) would like to remind parents and caregivers of an often-overlooked hazard in the home – access to open windows. Every year, paramedics respond to emergencies where a child has fallen from an open window, often from the second floor. These can be mitigated by following safety measures. Take the time to assess potential window and balcony hazards in your home before a preventable fall occurs.

Windows and screens

- Prevent access to windows by moving furniture such as cribs, beds, stools, and change tables out from under them;
- Keep drapery cords out of children's reach. Wrap excess cord around cleats, or tie-downs to avoid a choking hazard;
- Remember, screens are not safety devices. They are designed to keep bugs out, not children in.

Further prevention tips

- Toddlers & preschoolers are at highest risk of falling from a window, or balcony, but it may happen at any age;
- Direct supervision of children is the single most effective way to prevent falls from windows and balconies;
- Install safety devices which limit the distance in which a window can open to a maximum of 10cm (4 inches);
- Ensure the safety device can be released quickly, so the window can be used for escape in case of emergency;
- Consider purchasing a portable air conditioner, which will enable windows to stay closed & secure.

Balconies

- Do not underestimate a child's ability to climb. Furniture and other items stored on balconies and decks can be used to climb resulting in falls over the railing;
- Ensure that your balcony railings are not more than 10 cm (4 inch) apart. This will eliminate access between the vertical bars of a balcony, or deck.
